III: Watch Functions

smart watch supports a variety of functions: multiple sport modes, weather information, watch face store, heart rate monitoring, sleep monitoring, blood oxygen saturation monitoring, find my phone, message notifications, and etc.

Function Descriptions

1. Stop watch & Countdown

on the home page ,press crown button once to enter.

2. Quick Shortcut For Power On/off, audio BT, screen off timer, BT calling, Voice control, Reboot, DND, Screen Brightness, Setting, Game, Screen locker

in the home page, swipe from top to bottom

3. Ai Voice Assitant

Ensure S90 BT name connected with app, and the Audio BT (S90_HFP) to phone setting. then swipe from top to bottom in home page to enter and click the icon .now you can talk via watch to command phone.

4. Change Watch Face from APP

METHOD1: Use the crown button change the inbuilt watchface

METHOD2: Customize the watch face and change the watch face via the APP's watch face store: [LT Watch] → [Device] → [Watch faces] → [Edit] or [More] → [Select picture] → OK to download and change it with the new watch face (Do not leave the download interface until the download is 100% completed)

5. Step Counting

Activity data resets every day after 00:00, and you can check the history records in the APP.

6. Heart Rate Monitoring

It measures your heart rate data . To measure your heart rate : Turn on the heart rate monitoring function , and after 2 seconds it will automatically measure the heart rate , then wait for about 10-20 seconds until the measurement is completed .

Besides , if you need 24H automatic heart rate monitoring , you can also set this function in the APP : [LT Watch] → [Device] → Turn on [**Automatic heart rate detection**] .

Notes : 1) Ensure the sensor at the back of the watch slightly touches the skin and the wristband not too tight or too loose .

2) If you need to measure the exercise heart rate , please go to the exercise mode for measurement .

7. Blood Oxygen Monitoring

It measures your blood oxygen saturation data. You can check the historical measurement results in the APP's blood oxygen interface.

8. Blood Pressure Monitoring

It measures your blood pressure data. You can check the historical measurement results in the APP's blood BP interface.

9. Sleep Monitoring

9. Sleep Monitoring: It records your sleep data, and you can check the history records in the APP (Default sleep monitoring period: 20:00pm-10:00am).

10. Weather

You need to connect the watch and LT Watch APP to get the weather information in your location. Moreover, you can go to **[LT Watch] → [Profile] → [Unit Setting] → [Temperature]** to switch between **C** and **F**.

Note: The weather information displayed on the smart watch is obtained from a third-party weather service provider.

If your smart phone and smart watch obtain weather data from different weather service providers, then the displayed weather information may also be different.

11. Multiple sport modes

Exercise data will be automatically synchronized to the APP when connected, and you can check the detailed data records in the sports mode in the APP.

Notes: The watch does not built with GPS. But the GPS track function can be used in the Sport mode of app

12. Breathing Exercises

Follow the on-screen instructions for inhalation and exhalation (Breathing exercises help relax a person's mood, reduce psychological stress and improve vital capacity).

13. Shutter (watch should be connected to the APP)

Method 1: In the APP: Go to [LT Watch] → [Device] → [Easy camera], and click the shutter button to take a photo.

Method 2: On the watch: Click the shutter button on the watch's interface to take a photo, or shake your arm to take a photo automatically.

14. Sedentary Reminder

Go to [LT Watch] → [Device] → [Sedentary reminder] to enable/disable this function. If the watch detects no enough activities or steps during the set time period, the sedentary reminder function will be enabled, and the watch will then remind you every one hour.

15. Alarm Function

Go to [LT Watch] → [Device] → [Alarm] to set alarms according to your needs. Up to 5 alarms can be set (The alarm will only give a reminder when the set time is more than 2 minutes).

16. Calling function

[LT WATCH] APP → [Device] → [Call Reminder] (see picture 1)

16.1. The watch can answer and make calls, the settings are as follows:

Step 1: watch & APP be connected

Step 2: turn on the audio Bluetooth icon (as the pictures below)

Step 3: In Mobilephone : you Watch Bluetooth name and L-S90 will show in the Bluetooth list of the mobile phone. Please only click L-S90, if also connect other Bluetooth may affect the normal connection of the APP and the normal use of the watch).

[Figure 5]

Note: Intelligent power consumption adjustment function:

1. L-S90 [figure 7] & call reminder permission [figure 8] & APP & Audio Bluetooth [figure 5] all connected, then phone call is workable.

2. (1.5)minutes after a phone call, watch will automatically enter the "low power consumption mode"

3. if App not connected or [incoming call notification] permission turn off [figure 8] phone call is not workable.

16.2. select different answering devices in the call interface on the mobile phone: [figure 9]

[Figure 7]

[Figure 8]

[Figure 9]

Step 4: after connect audio BT .
user can click the right finger pointed icon to
enter into dial page to dial phone out .or check
contact list or check call history.

Step 5: Sync contact list .
go to app ,in telephone directory ,and click " + "
to input the contacts user needs to call in daily
life then it will sync to the watch contact list as
long as app is connected.

 Telephone directory

17. Music Control
